- Ukrainian - Native

SUMMARY

I am a Front-End Developer based in Liberec, Czech Republic, with a technical background in computer systems. I specialize in creating modern, responsive, and accessible web interfaces. My focus is on code quality, UI/UX improvement, and integrating external APIs. I enjoy working with HTML, CSS, JavaScript, and modern frameworks to build efficient single-page websites. I combine a pragmatic approach with creativity, ensuring interfaces are both functional and user-friendly. Outside of programming, I draw inspiration from my family and new ideas that help me grow professionally and personally.

PROJECTS

2025 - PRESENT

Portfolio Website — a single-page responsive portfolio website for showcasing Frontend Developer skills and projects. Features: clear structure (About Me, Experience, Portfolio, Contacts), multilingual support (UA/EN/CZ), resume download, social/GitHub links, all project examples including team projects. Tech Stack: HTML, CSS, JavaScript, responsive design, localization. Skills: responsive design, content localization, external links integration, UX/UI optimization. Role: independently selected the design mockup and fully developed the website from scratch. Repository: GitHub

2024 - 2025

Team Work: YachtJet — responsive website for a yacht rental service. Project type & role: Team project — Frontend Developer, responsible for the "Advantages" section. Description & value: The website showcases yacht rental options, highlights service benefits, and provides a user-friendly experience for browsing and booking yachts. The Advantages section emphasizes key features that help users quickly understand the value of the service. Tech Stack: HTML, CSS, JavaScript, responsive design, Vite. Repository: GitHub
